

CASE STUDY

Legal Research for a Bankruptcy law firm

THE CLIENT

The Client is the US Bankruptcy law firm. .

CHALLENGES, REQUIREMENT, AND COURSE OF ACTION

- The Client wanted to hire a LPO for review, analyse all the necessary debtor documents and extract required data into EZ filing or Best case bankruptcy software tool, value real and personal properties, and carry out tracking of prior bankruptcy lawsuits through PACER.
- The Client sought high calibre Indian attorneys to work on the project.
- The Client turned to SKJ Juris to perform the work. The Client transferred relevant files to SKJ Juris secured server.

BACKGROUND – A SET OF FACTS

- Project manager convened meeting with team to explain about the requirements for the project, instructions, specifications and other details provided by the Client.
- The team understood the Client requirements and the team leader decides on the allotment of work, number of people to work on the project, skills and training required.
- SKJ Juris built a dedicated team of Indian attorneys to work upon the project.
- Team leader instructed the team to review and analyse each bankruptcy document, extract required data into bankruptcy software tool and send the same for quality check to the quality checkers. Which when done, the work product goes to project manager, who with the assistance of the IT Manager uploaded it on the client's server.
- The team works on several bankruptcy petitions every day using EZ-Filing and best case Bankruptcy tool.
- Work is quality checked by senior Indian attorneys at SKJ Juris ensuring accuracy, brevity and clarity and to ascertain whether the work product meets the Client requirements
- Delivery team transfers the completed database and chronology back to the Client for incorporation into their existing case file every day.

THE SOLUTION

The Client is satisfied with the work, the costs and the turnaround time.
